Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Kohler et al., (3,355,882) Kohler et al., disclose a refrigerator comprising a housing 1, a cylindrical working chamber with displacer 123, a gap extending from the cylindrical surface of the displacer 123 (between the housing and the displacer 123), a first regenerator 127 which is disposed inside the displacer 123, a device alternately supplying the working chamber with an effective low-pressure gas, and gap gas regenerator 127/137 disposed in thermal communication with the gap via the radial pores . See Fig. 1, 10 and 11 and column 7, lines 15-70.
